Direct Hay Weighted Average Report for week ending 5/13/2022

Volume			
	This Week	Last Reported (5/2/2022)	Last Year
Tons:			
Hay	750	600	12400
Total	750	600	12400

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last Friday, domestic Alfalfa and Timothy steady in a light trade. Demand remains excellent as most interests are out of supplies. Exporters are writing contracts but no price has been set on those contracts as of yet. Rain showers in the trade area this week has continued to slow harvest of new crop supplies. Other areas of the trade area are at least 2 weeks away from 1st cutting. Producers indicate they have multiple offers for new crop coming in.

N/A						
Hay (Conventional)						
Alfalfa - Utility/Fair (Trade/Per Ton)						
	<u>Qty</u>	<u>Price Range</u>	<u>Wtd Avg</u>	<u>Freight/Use</u>	<u>Description</u>	<u>Crop Age</u>
